Related Article: Best Rankings | The best quilt covers ignore the thing about this only supportsleepers up to 240 pounds, writes one reviewer. Sure that should have been 2400 pounds. I'm a fat boy weighing 360 lbs, and this thing doesn't yell, move, moan, anything. He is one of dozens of reviewers who swear by the ability of this frame to weigh high writes another reviewer, more than 300 pounds of people and cats were on one side not even creaking, so I'm sure it will last for years to come. More than 1000 reviewers call it strong and say it holds up to very intense use, too. I bought this because of having a teen that is raw on everything I can buy, says one customer. I read reviews about how sturdy and quiet this bed thought that the price was right given its destructive nature. I am so happy that I bought it... We did 'fun' tests and bounced back on it. No squeaks or creaking were made. It is a platform frame, so no need for a square spring, putting on it is very level and smooth. As far as the family platform goes, this one is pretty much about the basic as it gets: simply a metal frame that you assemble on your own. But reviewers still really like it. Oh, my God, my greatness, one reviewer says about this framework. The frame is strong, comfortable and sturdy. I have grown well on this frame and I do not wake up stiff and tired. Despite the low price, she believes that this bed frame makes her room look very high end. As with most other furniture from Xenos, this bed frame is easy to assemble, because all the holes are in the exact right place so no need for material hassle. Another reviewer is very happy with it and describes the metal as all smooth, no rough parts, no rust, discoloration or lost paint. Editor's note: This will not be in stock until July 15. Put briefly by a customer, this bed is a great platform for its price and it was easy to assemble because it came with everything you need. Dozens of reviewers comment on the strict activity this framework can withstand. I have a lot [of] roommates who are constantly in and out of my room and jump on my bed, so to be able to get a bed frame to block whatever they wear and tear is amazing, writes one, while another says it is a little kid's test - the moment I put on a mattress, i was jumped on to 20 minutes frame or mattress did not move/slide at all. One keeps their review of this bed a very real platform, describing it as a sex-friendly frame. Many also comment on how easy it is to put them together: my dog can put this together if he has a thumb. It's that easy. Zenos Mia is another favorite among Amazon reviewers for a simplified look, ease of assembly, and underbed storage. It's made of metal and comes with the headboard. Let me start by saying that we bought this frame precisely because it was metal. As a military family we move often and we need furniture which is going to survive frequent moves and daily use. I always wanted something after easy to take apart and put together. This bed frame is on it, delirious a reviewer. Lamya's instructions are clear and straightforward, a fact that even inspired a customer to write a review: I'm not usually the one to write reviews, but I have to praise the manufacturer for making the easiest pool I've ever seen. It also looks neat and looks great - a simple design that's hard to dislike, says one reviewer. Another agrees: aesthetically and functionally, the construction of this framework is remarkable. I am pleased to say that design decisions in (some things like how to connect angles) help to improve overall stability/frame building as a whole. The outer end of each component is clean — there are no clear and ugly welds on any visible component. Storage is just a bonus for many reviewers. This bed is great for small apartments because it has a lot of storage space underneath, says one of them. I was able to fit the large checked luggage-sized bags underneath with no problems and plenty of room for other things as well. I'm a college student living in a small one-bedroom house with a very small space, so storage drawers got me hooked, writes one reviewer, who eventually impressed with this four-drawer platform bed underbed. Another describes the doors as huge, with plenty of room for anything you want to put there. You can fit your extra throw blankets or your pajamas. I personally maintain fashion corsets, designer stockings/high-heights, and other things I don't need often but don't want to put too out of reach when I feel like dressing. Nearly 20 percent of reviewers also comment on the quality of storage. They even have an insurance mechanism that our 2-year-old will not know, writes one reviewer, but the praise for quality extends to more than just drawers. One reviewer says: We both jumped on the bed last night and held it up nicely. Xenos Gerard Deluxe is a customer favorite for reliability and durability. I didn't think I'd rave about putting a piece of boxed furniture, admits one reviewer, who still, the frame is amazingly solid. It looks great and faux leather is soft and comfortable if bumped. For the price, I don't know what you could get it would be better. This thing, solid, another agrees. In the morning, I tried to kneel on the mattress and move really quickly to try to get it wobble or make some noise - nothing! I am 100 percent satisfied with my purchases so far. Another reviewer describes the fake skin as beautiful and soft. One reviewer adds: The skin feels as good as you can expect to feel fake skin. Obviously padded, but it feels nice, especially for this price point. The bed as a whole looks absolutely stunning. Does it look like something that would cost you \$800 at a furniture store? No... But it doesn't look like it was \$250 either. This quality is the reason that one reviewer calls it, the perfect bed frame for young people. It looks nice and very affordable. This bed frame has changed the whole dynamic in our apartment, and it certainly gives it a semi-elegant vibe. Here's a high-rated upholstered bed frame with over 3,500 customer reviews for its atmosphere. Wow! This is a gorgeous headboard and the base of the queen's bed. It seems more expensive than it is. We were very impressed with the quality of the material and how easy it was to put it together, writes one reviewer. It comes up efficiently packaged and designed that it's almost guaranteed, another rave reference. It's very strong, it's very flexible. No oscillation, tire vibration or bed dismovement at all. Many reviewers agree that it looks good too, with one saying: I get a lot of compliments on this bed frame. I think people's eyes are immediately attracted to sewing diamonds on the headboard. I recently bought a minimalist house and this bed frame fits perfectly in my small room. Easy assembly is another feature of this window that impressed many. Very easy to set up. It may take 20 minutes yourself. Whoever wrote the instructions should get rewarded because they were very simple and easy to understand, says one reviewer. Another adds, in less than 30 minutes, I ended up with a gorgeous-looking and surprisingly strong bed. I don't hear one squeak and nothing moves where it shouldn't. Customers resting their heads against the upholstered headboard find much more comfortable than wood or metal, which is why they chose this particular Xenos model. A new mother says she actually makes nursing easier because the headboard is high and comfortable, so she can lean fully against her when breastfeeding at night. The only downside for her is that it is a little squeaky, so it may be less discreet when you get busy. But many others do not seem to have the issue. One calls it a very durable frame with high-quality fabric, who thinks it seems much more expensive than \$200. In addition, it has continued over the years: the frame it bought two years ago from this brand is still in excellent condition. Here's another upholstered bed platform - this time with a high headboard that is with a lack of metal studs that most of the references describe saline as beautiful. As one of them wrote, the fabric is The quality is amazing. Silver beads along the wings are a beautiful and elegant touch without making them feel gaudy. It is also a solid piece of furniture, according to this reference, it was easy to assemble: it was impressed by the quality of this bed. I couldn't believe the price and was reluctant to think it was too good to be true. The material is sturdy and the fabric looks incredible. I built it in less than an hour and I absolutely love it. This customer agrees: I love this bed. Incredible quality for the price. I shopped around before buying this one and this is frankly a \$1000 bed in a furniture store. The fabric is very nice. I love the silver nail details that go all the way down to the ground. Makes it seem more expensive than it used to be. This suspended headboard sits about ten inches below the main life option, so if you don't want an overrated headboard, this may be the option for you. One customer believes that the hardening looks very high-quality, describing the design as elegant and modern at the same time. I like to be on alert. Another client had to do some major persuasion to get her husband on board with an upholstered headboard because he tended to prefer a basic metal one, but once it was built, his tune changed. That's because the quality is good, it got sold, and the style was just what I was looking for. She even thinks it's particularly comforting to lean against her. The bed can even easily support 500 pounds, according to another reviewer. Although it is more expensive than other options on Amazon, it is believed that it is still cheaper than other options and worth investing: I would definitely recommend this bed to anyone. Zinus Alexis 12-inch Deluxe Wood Platform Alexis Bed Bed is another popular choice of Xenos for those looking for a simple model made of wood. This bed is beautiful. Nice clean looks and solid design. The color is beautiful and it seems to be of real wood, and it has nice wood grains, notes one reviewer. It's also easy to assemble: I have to say, it's the easiest bed to put together and has the highest quality I've seen for this price. It took me 15 minutes to put it together. It's made of real wood and this bed frame is worth every penny paid. Wood is strong and beautiful color, according to another client. The frame does not make any noise and is very strong, adds one reviewer. After putting my new mattress on it, I actually jumped and jumped around it to help break in some and the frame made zero noise and still seemed structurally sound. As one reviewer says: First and foremost, this sounds amazing. It is sturdy, beautiful and rather easy to assemble. We slept on it and we haven't had a good night's sleep in a long time. He is supportive and strong. I didn't hear a squeak or sound all night. Another concludes that he is solid, stable and looks beautiful. Many reviewers believe that the frame of a wooden bed More expensive than upholstered or metal. This wood, in particular, is very high quality with a beautiful look and feels so gorgeous. The biggest concern of this reference was with buying a single choice bed frame that would be extra strong because she says her husband is a little overweight. While she was initially concerned about durability, once they put it together, she found that the frame was extremely solid with a strong middle beam construction. She suspects that she will last a very long time and survive a few steps. A second client also confirms his power: the ice on the cake is that he definitely held up to us 'christening' it! So, A+ for durability during our romps. Another bonus for her is that because she and her boyfriend want to sleep in cold timers, their bed won't sink in the middle, so they don't wake up hot anymore. Here is another wood platform bed frame, but this time with a traditional headboard. The quality is great. It is made of very hardwood, and the end on it is very good as well, the book is a reviewer, concluded, I simply couldn't be happier with the product, packaging, and ease of assembly. Get this bed! Another agrees that the quality of the material was very good. The wood looks great and the instructions were PERFECT. One reviewer loves this platform bed so much, they call it one of the best furniture purchases I've ever made. The bed itself is beautiful and made of real wood. The ending as it is in the picture (though a little lighter than you'd expect from espresso) agrees another. Overall, it seems to be a strong option given the price. Once assembled, the bed is sturdy. I haven't seen any other furniture of this quality in this price range, says one satisfied customer. Another agrees: I was attracted to this product based on the fact that it was solid wood and a simple Mission-type design, price. More than 10 percent of reviewers like that this headboard is made of real wood, not particle crap, as one alternative reviewer calls it. Another client, who was not entirely convinced that it was real, still says that it has a very polished, attractive finish. They add, something you can't really see in the pictures is that those 'wood' panels that make up the headboard are about 1.5 inches thick, so it looks like, you know, real furniture. But another reviewer proved how realistic this wood is, as they covered it with sand, something that would basically destroy the particles, and refine it: I took a fine 180 piece of sandpaper and went lightly over the wood, once assembled, cleaned, applied one coat of matte paint, then felt sorry for it. This platform bed is made with over 1400 reviews of wood and metal, and also features a headboard and foot panel. Reviewers like it for a cool look and sturdy construction: this bed frame exceeded all my expectations. The quality looks top-notch. Piece of cake Preparation, great looks, strong build, exceptional price, rave and one reference. We really like this frame. First of all I was struck by how huge the box was weighing much more than I expected because the metal components are really solid and the wood panels are decent size and thickness (and yes they're real wood). It's a lot really strong doesn't look nice. It has a kind of light industrial look for it without being overly trendy, says another. It's a dark, polished dark metal frame with well-polished wooden accents making a great addition to our new home, writes one reviewer. Another rave, I liked how easy it was to put together. The instructions were large and clear and there were no strange/unreadable instructions. If you are looking for a modern low-quality bed frame with a wooden and sleek steel appearance, that is, another concludes. The 6-inch bed platform gets extra points from references for how easy it is to assemble, a feature mentioned in more than 500 reviews. Someone says this bed was probably the easiest item I've ever assembled. It took 20 minutes, and it exceeded all expectations for being strong and easy to assemble. It also features a streamlined and modern look loved by customers: it looks great, it's comfortable, and I can even store some folding chairs under a six-inch frame, as a reviewer says, while another writes, I bought this Queen's platform bed because I loved the contemporary look of it. This reviewer agrees: it was easy to put the bed together (it took less than 30 minutes from start to finish), and it looks neat, elegant and more expensive than it used to be. As this one does: it looks very modern clean and elegant. He upgraded [my son's] room and changed its whole décor. And yet another rave, I dotted this bed's love. I'm minimalist and I love simple things. The more useful surface strategy is designed, expert recommendations for things to buy across the vast e-commerce landscape.
